Event Operations Manager

Nashville, TN | $60,000–$75,000 | + Performance Bonus

Bring certainty. Own the outcome. Lead with confidence.

At Grand Tents & Events, we execute some of Tennessee's most complex events. We're looking for an Event Operations Manager who **takes ownership**, solves problems before they happen, and leads crews with confidence. If you're energized by fast-paced work and take pride in execution, we'd love to meet you.

WHAT YOU'LL DO

- Plan and lead complex projects from kickoff through strike.
- Coordinate crews, clients, vendors, and equipment.
- Lead field teams with confidence and accountability.
- Solve problems before they impact the customer.
- Deliver projects safely, on time, and at a high standard.

WHO SUCCEEDS HERE

You'll thrive here if you're the person people naturally look to when something goes wrong.

- You think ahead — not just for today's event, but next week's.
- Clients feel taken care of because you over-communicate, not because things went wrong.
- Your crew knows what's expected before they ask.
- You stay composed when the plan changes — and the plan always changes.
- You own problems until they're solved, no matter whose fault they are.
- Every event ends better than it started.

QUALIFICATIONS

- Experience leading crews in construction, logistics, live events, production, or field operations.
- Strong organizational and communication skills — clients, crews, and vendors all get clarity from you.
- Bilingual (English/Spanish) strongly preferred — you lead diverse crews and keep everyone on the same page.
- Proven ability to lead crews of 5–20+ people with confidence and accountability.
- Comfortable working outdoors in all conditions, including early mornings and weekends during peak season.
- Valid driver's license required.

WHY GRAND TENTS & EVENTS?

We're building the next generation of leaders at Grand Tents & Events. As our company grows, so will your opportunities. If you're looking for more than just a job — if you want to help shape a company and build a career — you'll find that here.

We're investing heavily in **our people, technology, and operational excellence** — and we're looking for leaders who want to grow with us.
